CANON EARNS A DISTINGUISHED EDITOR'S CHOICE AWARD

Canon U.S.A., Inc. is a proud recipient of a BetterBuys' Editor's Choice 2017 Award in the black-and-white multifunction category for the imageRUNNER ADVANCE 4500 Series.

Awards are given to a select group of office equipment products as a sign of excellence in quality, performance, and value. The recipients are determined by evaluating a variety of features within each respective category. Such features include price, speed, cost per page, paper handling, and any unique feature such as mobile printing capabilities.

Melissa Pardo-Bunte, editor of BetterBuys, states the following: *"After evaluating similar black and-white MFPs, we chose the Canon imageRUNNER 4500 Series, because Canon has consistently improved upon its MFPs with better upgrades over the years, and these devices [are] no exception. They provide strong features and scalable options for an office mid-volume printing needs."*
